

SECURE your data

Off-site PC Backup · Virus Protection · Managed Firewall

Today, more than ever, business owners need to protect their intellectual property and corporate assets against both natural and man-made disasters. Cbeyond realizes that disaster contingency and recovery needs to be simple to set up and easy to use. With Cbeyond's suite of services, you can keep your important company information safe and secure. Choose the services you need – and upgrade as your business grows. Cbeyond makes it simple to meet your needs and budget.

How It Works:

- **Off-site PC Backup** – A reliable tool to automatically backup important files quickly and easily.
- **Virus Protection** – Shield your business from potentially deadly email-borne viruses that are stripped off and quarantined before they ever get into your inbox.
- **Managed Firewall** – Shield critical network resources, block unnecessary Internet traffic, or restrict applications used on your network.

The Cbeyond Advantage:

- **Off-site PC Backup** – Access securely from any Web browser. Files are backed up redundantly to 2 locations.
- **Virus Protection** – Cbeyond provides each individual email box with virus protection. Virus definitions are automatically updated every hour.
- **Managed Firewall** – Configure your network to meet your business's security needs with Cbeyond's Managed Firewall.

Application	Part of your Essentials Package	Upgrade (optional add-on)
